

Do you want to Build a Tractor?

Option 1:

- Look at some tractor pictures online or in a book for some ideas to get you started
- Gather some materials from around your house (cardboard, plastic, paper, markers/colored pencils/crayons, tape/glue, scissors, etc) Be sure to ask your parents for permission for the items you use
- Design questions:
 - What can you use for the tractor body/frame?
 - What can you use for wheels?
 - How about windows?
 - How about lights?

Option 2:

- If you want to take on more of a challenge see if you can make a tractor that will roll down a ramp.
- See directions here: <https://www.purpleplow.org/puzzlers/cardboard-tractor>
